Little boys may grow some more.
Little girls may gather pollen,
Little men may fume and splutter,
Little cakes require the butter.

The river at Paris, France, has been stocked with American salmon. Poor things! They are all in-Seine. —[Boston Commercial Bulletin.]

A large shipment of sausage was made to Europe yesterday. Probably going over to be inoculated by Pasteur. —[Yonkers Statesman.]

It costs \$10,000 to convert a South Sea cannibal to Christianity, and then he is only worth \$9 a week in a dime show. —[Fall River Advance.]

Parson Downs confesses that he "don't know in advance what God is going to do." If he did he probably wouldn't feel so chipper. —[Boston Post.]

It is easier for a camel to pose as a creature of grace and beauty than it is for a man to remember to date his letters "1886." —[Fall River Advance.]

With a population of 300,000,000 China has not a single pauper. This is easily explained by the fact that all the Chinese paupers come to this country. —[New York Graphic.]

A policeman was shot and killed in a Florida town last week. It is needless to remark here that he was a new man and hadn't learned his business. —[Merchant Traveler.]

A poet died in England in the seventeenth century who was known as the "water poet." Since then several poets have been weak enough to merit that distinction. —[New York Graphic.]

Heart Disease.

Read the hospital reports, read the mortality reports, read the medical publications, read the daily newspapers, and learn how widespread is heart disease. How difficult of detection it is to most people, how many and how sudden are the deaths it causes. Then read Dr. Flint's Treatise on Heart Disease, and learn what it is, what causes it, what diseases it gives rise to, what its symptoms are, and how it may be attacked. If you find that you have heart disease, ask your druggist for a bottle of Dr. Flint's Heart Remedy. The treatise may be had by application to J. J. Mack & Co., Nos. 9 and 11 Front street, S. F.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with head ache, you are nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and leaves you in worst condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters and only 50 cents a bottle at S. J. Hodgkinson & Co's Drug Store.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at S. J. Hodgkinson & Co. drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free large bottle \$1. Every bottle warranted.

Notice!

Manning & Jacques have been commissioned by the Reno Gas Co. as a competent firm to do their gas-fitting, and the company would recommend parties having work of this nature done to do so, as they employ only the best workmen, thereby saving much annoyance and expense.

THURSDAY, MARCH 24, 1887

The endowment of a manual-training and technical school in San Francisco by Dr. Cogswell with \$1,000,000 worth of city property, is a happy event for the metropolis. The character of the proposed school is learned from the following preface to the gift:

The education that does not prepare one to intelligently direct his labor is not worthy of a moment's consideration. We are sorry to say but little effort is made in our present system of education to prepare children to use their knowledge in assisting them to gain a livelihood. Most of our boys and girls have no occupation and are not fit for one when they leave school. The new education demanded by the necessities of the nineteenth century calls for the training of the eye and the hand, and stamps it as being just as important as the study of grammar, geography, arithmetic and other kindred studies. Educated workmen and women are necessary to solve the great labor problem that will arise in the future. For the purposes of this education there is room and need for technical schools in all quarters of our country. Mental industry can exist only along with physical industry; hence the true school should give both mental and physical culture.

San Francisco merchants dread the Inter-State Commerce law, as they consider their trade in danger. At a meeting held by them on Monday there was a general agreement that if it is to be strictly construed, especially the "long haul-short haul" clause their overland export trade is certain to be seriously, if not disastrously, affected. The only good they can see to come out of it is that it will help those manufacturers on this coast who dispose of their wares here. The heavy tariff will keep out opposition. Said a merchant of the metropolis to a reporter Tuesday:

The fruit business is the great business of California, and the bill retards it greatly. We can no longer ship to the East, unless the Commissioners can come in and greatly reduce the rates. Much depends on who the Commissioners are, and that is why I, personally, have been anxious to get some Democrat or Republican on the Commission, from this coast. Our special train scheme for sending fresh fruit to the East is all knuckled to pieces. New arrangements must be made or we are badly handicapped. Whether this can be done or not remains to be seen.

The Pennsylvania Railroad Company has construed the Inter-State Commerce Act in its application to the free-pass question, and will issue no more Inter-State free passes. If the law be similarly interpreted by the other railroad companies, the good results which will accrue from its operation will far outweigh all the objections that have been urged against it. "There is no abuse in our general railroad system," says the New York Evening Sun, "that is more pernicious or widespread than that of the free pass, and nothing would do more to discourage the whole breed of blackmailers and corruptionists who prey about the purlieus of legislation than that they should have to pay fare or walk. They belong to every station of life, from Judges of the upper courts to the cheapest sample of a two-cent striker, fulfilling his scurvy destiny at Albany."

De Lesseps assures the people of Paris that they can rely upon there being no war between France and Germany; but unluckily he has often assured them that the Panama Canal will be open before the year 1890. This distinguished man is a greater projector than prophet. There is a better pledge of peace in the waning life of old Emperor William, who has said that after sixteen years of peace he does not want to leave his people a heritage of blood.

It is to be regretted that the Pacific Coast is not represented on the Inter-State Commission, as our interests can only be understood by a man who has made them the subject of personal study.

A call was issued yesterday for \$10,000,000 of the three per cent. loan of 1882.

James Hunter, a prominent merchant and politician of Philadelphia, has absconded.

TO-DAY'S NEWS.

Reduction of Freights West of Pittsburg.

A HABAES CORPUS CASE

A Woman Kills Her Husband With Hot Water.

A FATAL MINE EXPLOSION

The Secretary of Ireland Bitterly Denounced.

A Serious Charge Denied.

NEW YORK, March 24.
A writ of *habeas corpus* obtained by Henry M. Folsom, ordering Dr. Wm. M. Cate to produce in court Miss Agnes Folsom, the actress and daughter of Folsom, was made returnable before Judge Patterson today. It was alleged that Dr. Cate held Miss Folsom under restraint; that he had ruined her, and that she was insane. The young woman did not appear. Dr. Cate was represented by counsel, who, in explaining the non-appearance of Miss Folsom, asserted that she was not in the possession of his client, and claimed that she was not insane. Counsel said the charge that his client had taken advantage of his relations with the family, and had ruined her and taken her away from her family, was false. In relation to the suit of W. J. Baldwin, the former lover of Miss Folsom, against Dr. Cate to recover damages for an alleged assault, the defendant said there was no merit in the action, and claimed it was a conspiracy to injure him in his profession. Miss Folsom's affidavit was produced in court. It states that she is not and never has been under duress of Dr. Cate or any one else; that it is false that she has been seduced and taken away from her mother by Dr. Cate, or that he has coerced her in any way. Her affidavit states that her relations toward her father forces her to remain silent as to the true reason of bringing these proceedings.

Serious Domestic Trouble.

NEWARK, Ohio, March 24.
Jacob Bread died last evening from the effects of a scalding received at the hands of his wife on last Sunday evening during a quarrel. The couple frequently had trouble, and on this occasion, becoming exasperated at some abuse by her husband, Mrs. Bread threw a pan of boiling water in his face. She kept everybody out of the house after the scalding, but since his death, she has become a raving maniac.

An Unexpected Reduction.

PITTSBURG, Pa., March 24.
A reduction of the west-bound freight tariff for posting on April 1st, when the Inter-State law passes into effect, shows a reduction of from 50 to 62½ cents per 100 pounds between this city and Chicago. Other classes are reduced 2½ cents. The reduction was unexpected by the shippers.

Federal Appointments.

WASHINGTON, March 24.
The President this afternoon, appointed Oscar S. Straus, of New York, to be Minister of the United States to Turkey; Harold Marsh, of Maine, Consul General at Apia, and N. J. George, of Tennessee, Consul at Charleston, Prince Edward Island.

Brutal Murderers.

JERSEY CITY, March 24.
Five roughs waylaid and assaulted Louise E. Winkle, a 12-year-old girl last Tuesday night on the outskirts of Granton, in Hudson county, and she has since died from her injuries. Four of her assailants are known and searching parties are out for them.

A Railroad to be Sold.

SYRACUSE, March 24.
Judge Wallace, of the United States Circuit Court, has ordered the sale of the New York, Rutland and Montreal Railway, to pay receivers certificates issued, to the extent of \$350,000.

Manning's Successor.

NEW YORK, March 24.
A Washington special to the Post says Secretary Fairchild has been informed by the President that he is to be Secretary of the Treasury after April 1st.

A Bull Butter Dealer Fined.

NEW YORK, March 24.
Jacob Peterson, a grocer of this city, was fined \$100 to-day for selling oleomargarine unlawfully.

FOREIGN DISPATCHES

Fatal Colliery Explosion.

SYDNEY, N. S. W., March 24.
Eighty-five men were entombed by an explosion in the Bulls colliery yesterday. The accident occurred in a tunnel a mile and a half from the mouth of the pit. Seven bodies have been recovered. The tunnel is blocked by debris caused by the explosion.

A Bitter Denunciation.

DUBLIN, March 24.
The United Ireland, Parnell's organ, publishes a bitter attack on Balfour, Chief Secretary for Ireland. It calls him the bloody banjour with a tiger's heart wrapped in a woman's hide, and says he has entered lightly into a struggle with the Catholic church, and that in such struggles the proudest

despots have been humbled into the dust. Prince Bismarck, while awaying the destinies of Europe, once learned the bitterness of defeat, and that was when he laid his hands on the church which resents a sacrilegious handling of the sacred privileges of the priesthood.

Cholera Disappearing.

QUEBEC, March 24.
The Consul General in Canada, of the Argentine Republic, has been notified by his Government of the disappearance of the cholera from the principal points of that country.

WESTERN DISPATCHES

Miners Smoked Out.

DOWNTOWN, Cal., March 24.
This morning, about 10 o'clock, the buildings of the Bald Mountain Extension Company, at the mouth of the company's tunnel at Forest City, were burned, the fire starting from some overheated tar on the stove in the office. Thirty men, working over a mile and a half under ground, escaped through an air shaft. The loss is covered by an insurance of \$5,000. A temporary building will be immediately put up, and work soon resumed in the mine.

A BODIE MINERAL CLAIM.

An interesting case decided by the Interior Department.

In a letter to the Commissioner of the General Land Office, relative to the case of the Bodie mineral entry No. 177, made December 1, 1883, by Henry Williams, for the Great Western Lode claim, Assistant Secretary Mildrow expresses the opinion that the entryman has complied with the law as to publication and posting notice, and that this case need not be sent to the board of equitable adjudication. The Commissioner had declined to approve the entry for patent, owing to an irregularity, holding that the posting in the local office did not cover the entire period of publication, upon the theory that if the publication is for a greater period than 60 days, the posting in the local office must cover the entire period of publication, although an identical period of 60 days may have been covered by the publication and the posting of notice in the local office. When notice is required to be given by different forms and modes to cover the same continuous period of time, notice by either of the different modes will not run against an adverse claimant. The Department does not take notice of publication until notice is posted in the local office, as required by law, although the publication may have commenced prior to the filing of the notice in the local office. The 60 days within which adverse claims may be filed will be computed from the time when notice has been given by all the modes required.

The case of Miner vs. Mariott is cited, and then Mr. Mildrow concludes: "If the notice is posted in the local office on the 1st day of publication, an adverse claim should be filed within 60 days from that date, but if the notice is not posted in the local office until three days thereafter an adverse claim may be filed on the last day of publication. This view is not in conflict with the rule laid down in Miner vs. Mariott, and is a compliance with the provisions of the statute and the rules and regulations thereunder."

The Latest and Greatest Discovery

Dr. J. De Prad's Hamburg Fig—a crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, habitual constipation and indigestion, dyspepsia and piles, they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every druggist throughout the world. Price, 25 cents a box. J. J. Mack & Co., Prop's, 9 and 11 Front street, San Francisco, Cal.

Disorders Which Affect the Kidneys

Are among the most formidable known. Diabetes, Bright's disease, gravel, and other complaints of the urinary organs, are not ordinarily cured in severe cases, but they may be averted by timely medication. A useful stimulant of the urinary glands has ever been found in Hostetter's Stomach Bitters, a medicine which not only affords the requisite stimulus when they become inactive, but increases their vigor and secretive power. By increasing the activity of the kidneys and bladder, this medicine has the additional effect of expelling from the blood impurities which it is the peculiar office of those organs to eliminate and pass off. She Bitters is also a purifier and strengthener of the bowels, an invigorant of the stomach and a matchless remedy for biliousness and fever and ague. It counteracts a tendency to premature decay, and sustains and comforts the aged and infirm.

Make no mistake.

By dispelling the symptoms so often taken for consumption, SANTA ABIE has brought gladness to many a household. By its prompt use for breaking up colds, coughs, croup, whooping cough, fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA CATHARTIC-CURE is equally effective in eradicating all traces of nasal catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, Reno, Nevada.

The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its being by intelligent people for over forty years. It has indisputably proven itself the very best known specific for all colds, coughs and pulmonary complaints.

"HACKMETACK" a lasting and fragrant perfume. Price 25 and 50 cents. Sold by Osburn & Shoemaker.

EDUCATIONAL.

The First Session of the Convention of the National Department of Superintendence at Washington, D. C.

Says the Washington Post of the 16th instant: The first session of the convention of the National Department of Superintendence was called to order in the lecture room of the National Museum by President Chas. S. Young, of Reno, Nev., yesterday morning, with about one hundred pedagogues in attendance, including Superintendents of Instruction from nearly every State in the Union. N. C. Dougherty, of Peoria, Ill., is Vice-President, and Charles C. Davidson, of Alliance, O., is Secretary.

The President introduced Commissioner Webb, who, on behalf of the people of Washington, welcomed the Superintendents to the city. He spoke of the education of the people of the whole nation as a matter of the first importance, and the meeting of the Association having the discussion of education in view, was an event of national importance. How to produce, keep alive and foster a profession of teaching, making it worthy of the best men, was a subject, the discussion of which would bring about great good. Education and the administration of the public schools should be lifted above the level of party and entrusted to the best members of each community.

President Young, in reply, thanked Commissioner Webb for his kind welcome to Washington, which was the centre of legislation, of diplomacy, of art and history, and should be the educational Mecca. Congress has neglected the educational interests of the nation. Appropriations were annually made for the Military and Naval Academies, but not a cent had been given toward founding a great national university such as had been founded in France, Germany and other countries and such as Washington dreamed of. The policy of the last Congress seemed to have been "millions for defense, but not a cent for education," and while Washington with its beautiful parks and its broad avenues was justly regarded as the model city of the world, not even the corner-stone of Washington's great ideal university had been laid.

Commenting on the convention, the Post says: No visitors who could come to Washington would deserve a warmer welcome than the teachers of the public schools of the land now gathered here. There is in the world no higher or more honorable title than that of teacher. We trust they find Washington all their fancy painted it, and that they will think it worth while to set apart one day in the year for a National Assembly here, where the weaknesses and needs of the public school system can be so profitably discussed.

A Recent Arrival.

Mason Small, of Danville, Illinois, arrived in Reno on last evening's overland. He is a young man, full of enterprise, and is said to represent quite a number of persons of means in Illinois who are desirous of locating in this vicinity. He left on this morning's stage for Cedarville, but is expected to return to town in a few days, when he will stop with his uncle, George P. Small. The GAZETTE trusts that Mr. Small, Jr., will realize the prosperous future immediately ahead for Reno, and take advantage of some of the many good opportunities awaiting those of even moderate means and plenty of good judgment and go-ahead-iveness.

The University to be Closed.

The GAZETTE learns that the Board of University Regents, at a meeting held by them yesterday, concluded to close the State University to-morrow for the term, and notified the instructors of the institution that their services would then be required no longer. The step is said to be deemed necessary by the members of the Board in order to allow of their making a number of desired improvements to the building.

The Moore Case.

The hearing in the Moore case in Justice Young's court progresses slowly. Mrs. Moore's testimony was not all taken down until 2 o'clock this afternoon, when Lafayette, the 22-year-old son of the accused, took the stand. So far as heard by the GAZETTE reporter, his testimony conflicts considerably with that of his mother's. He is evidently a witness in behalf of his father.

The King Euchre Party.

The progressive euchre party given by Judge King and his wife last evening at the Lake House, where they are stopping, was a delightful success. The games were exciting and interesting. Handsome prizes were given. An elegant lunch was served, after which the remainder of the evening was spent in music and conversation.

An Unwarranted Squeal.

Fish Commissioner Cary, who was at Verdi and Essex yesterday, informs a GAZETTE reporter that there is no truth in the statement of the Fish Commissioners of California that the trout are being stopped by dams in Nevada. He says the dams over which the fish are unable to pass are in California.

PERSONAL.

Captain John Kelly went below again last evening.

Miss Motley, the milliner, went below last evening.

Miss Beckie Fredrick has entirely recovered from her attack of scarlet fever.

Lieutenant-Governor Davis arrived from Carson on today's noon train.

Deputy Internal Revenue Collector P. J. Dunn was in town last night.

Hon. E. T. Hale and bride, of Virginia City, went below on last evening's overland.

A. C. Webb and wife, of Churchill county, are in town. Mr. Webb was formerly a teacher in the Reno public schools.

J. G. Laws arrived last evening from Paradise Valley, where he is engaged in keeping books for the "Paradise Valley Mining Company."

E. B. Rail and son, of Carson, Sam Longabaugh, of Empire, J. B. Mallon, of Virginia City, and L. A. Blakeslee, of the Humboldt House, arrived from below on this morning's overland.

George Teasland, one of the six men at the Eureka mill, who, on the first of this month was severely injured by the bursting of a retort, is at his home in Reno. He is still scarcely able to get about, owing to the effects of the quicksilver.

Overland Freight Rates.

Says the San Francisco Post of yesterday: In order to meet the provision, against discrimination—long and short hauls, etc.—the Transcontinental Association has made a new schedule of freights to go into effect at the same time that the Act becomes a law on April 5th. This schedule is not yet in the hands of the agents here, but a few figures have been given out, and the Post was able to secure them.

From Chicago's common points the rate will be from \$4.70 for class 1, to \$1.15 for class E. What class E includes the railroad men do not yet know, but it is the lowest classification on the schedule. Class 1 includes dry goods, boots and shoes, clothing, etc.

From Mississippi river points the rate will be from \$4.50 to \$1.10; and the same doubt exists about classification.

From Missouri river points the rate will be from \$4 to \$1. These rates are enormously in excess of the present charges. What will be done about New York points which have the benefit of Pacific Mail and clipper freights will not be known until the schedules are printed.

The Board on Deck.

Carson Appeal of Wednesday: The new State's Prison Board have determined to assert its rights and in future to see that the State's Prison is run on strict business principles. The Attorney General has decided that the Board has the right to appoint the Warden of the Penitentiary, and accordingly, yesterday afternoon, at a regular meeting, appointed Frank McEulloch as the Warden, and also served him with a notice that all future appointments of subordinates should be subject to the approval of the Board.

New Railroad Project.

The Battle Mountain Central Nevada of last Thursday says: The question of building a railroad from here north by way of Tuscarora is being considered by Eastern capitalists; the proposition is to extend the Nevada Central not only to Tuscarora, but clear through to the Snake river in Idaho. What will be done in the matter is hard to say, but it is probable that such a road will be built at no distant day, and that it would be paying property.

A Break Predicted.

In conversation with a well-known gentleman direct from the land of oranges, a Carson Tribune reporter was told that the chances are very favorable for the heaviest break in land value before the Summer is past that ever was known in the United States. He said there were thousands of laborers unable to obtain a day's work and that their number would greatly increase.

A New Bank For Reno.

Daniel Meyer, a millionaire banker of San Francisco, returned to that city yesterday after a day's visit of inspection in Reno. It is reliably stated that he will, during the coming Spring, establish a bank in Reno.

A Luxury and Necessity.

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Figs. 50c. and \$1 bottles for sale by Wm. Pinniger, Reno, Nevada.

Fryer's Abietene Ointment—made from the gum of the Abietene tree or "Pinus Sabiniana" is guaranteed for piles, salt rheum, catarrh, burns, oil sores, etc. Price 25 cents. Sold by Wm. Pinniger, Reno, Nevada. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

FOR DYSPEPSIA and liver complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by Osburn & Shoemaker.

The recent action of the Board of Prison Commissioners indicates that they purpose managing the affairs of that institution as provided by the constitution of the State.

A fish ladder, constructed of stone, will soon be completed at the reduction works, which Fish Commissioner Cary says will be far superior to a ladder made of wood.

Chief of Police Farum, of Virginia City, is reported to have rented the Steamboat Springs property, and will soon take charge, having resigned his office for that purpose.

The case of Gebhardt vs. John Belz is on trial in the District Court this afternoon. The plaintiff sues for \$2,000 for injuries alleged to have been received by him during a fist encounter with Belz.

Cure of Spinal Weakness.

YATES, ORLEANS CO., N. Y., March 28, 1886.

My wife, five years ago, was confined to her bed with inflammatory rheumatism of the muscles of the back. The doctor thought her case hopeless and doomed her to be a bedridden invalid. The violent pain kept her awake almost every night. She lost over 30 pounds in weight. To ease her pain I thought I would put on Allcock's Porous Plasters. I covered her back with them. To my great delight she began to sleep well. The pain very much abated in one week. I then took the plasters off, washed her back, and put on fresh ones. At the end of the second week she insisted on getting up, and by the third week was entirely well and able to attend to her household duties. E. F. WOOLSTON.

Home Testimony.

Gilmore's Aromatic Wine has been produced at Pavilion, Genesee Co., N. Y., for 15 years past. Batavia is the largest town in the county, and the demand there has steadily increased every year. It was first endorsed by the Genesee Co. Medical Society, and a number of leading physicians used it in their practice. A large demand at once sprung up for it and the druggists were compelled to keep it in stock.

The sales in Batavia are now 1,800 bottles a year at retail, and the goods are ordered by the gross. No other remedy has half that sale in the town. It takes a medicine of first-class merit to achieve such a reputation. Agent for Reno, W. Pinniger.

MISCELLANEOUS.

A Safeguard.

The fatal rapidity with which slight colds and coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should compel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other remedy so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numerous instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

To remove warts use a salve made of pulverized copperas mixed with lard. One or two applications will usually be sufficient.

The Connecticut game law gives sportsmen a long rest. Woodcock, quail, gray squirrels and partridges are "protected" from January 1 until October 1.

A Pennsylvania paper speaks of the "myrrage license" in that State. It was probably a typographical error, but it shows how near an editor can hit the truth by accident.

"Why do all the cold waves come from the northwest, my dear?" asked a fond husband. "Oh, because there is so much coolness between St. Paul and Minneapolis," was the reply.

"Well, no," replied the General, "I was not personally present at that battle, although it was fought mainly by troops of my division; in fact, I seldom had time to attend in person any of my battles. I was kept constantly engaged writing my memoirs of the war."—Burdette.

A writer in the *British Medical Journal* advises people to be careful not to slice up a pineapple with the same knife they use in peeling it, as the rind contains an acrid organic substance which is likely to cause a swollen mouth and sore lips. In Cuba salt is used as an antidote for the poison of pineapple peel.

If you have a felon on your finger, as soon as you find out that it is really a felon, mix about a tablespoonful of soft soap, and the same quantity of good lime, in a tea cup; then take a piece of this about as large as a pea, and bind it over the part affected; renew it every few minutes, or as often as it gets dry, and in the course of a few hours it will have eaten a hole into the sore, or near it, so that it can have vent.

—Exchange.

To take scorch out of clothes, put the article where the bright sunshine will fall on it; peel and slice two onions, extract the juice; cut up half an ounce of fine white soap and add to juice; two ounces of fuller's earth and a half pint of vinegar; boil all together; when cool, spread over the scorched clothing and let remain until dry; then wash and boil out the articles and the scorch will disappear unless burned so badly as to break the threads.

[Atlanta Constitution.]
A delicious pie may be made of canned pineapple. If the pineapple is in slices, it should be chopped fine; to one large cup of pineapple allow one cup of sugar, half a cup of butter, one cup of sweet cream, four eggs; reserve the whites for the top of the pie, as it should have an under crust only. Do not throw away the juice left in the can; it makes a nice flavoring for pudding sauce, or with the addition of a little gelatine and sugar you may make a small bowl of delicate jelly.

Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, plains and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfaction and proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and liver complaint are the direct causes of 75 per cent. of such maladies as biliousness, indigestion, sick headache, costiveness, nervous prostration, dizziness, loss of appetite, palpitation of the heart and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cts. Try it.

DON'T YOU WORRY.

How Shrewd Business Men Have Solved a Great Problem.

"Is there a fatality among our prominent men?" is a question that we often ask. It is a question that perplexes our leading medical men, and they are at a loss to know how to answer it.

We sometimes think that if the physicians would give part of the energy to the consideration of this question that they give to combating other schools of practice, it might be satisfactorily answered.

The fights of "isms" reminds us often of the quarrels of old Indian tribes, that were only happy when they were annihilating each other.

If Allopathy makes a discovery that promises good to the race, Homoeopathy derides it and breaks down its influence. If Homoeopathy makes a discovery that promises to be a boon to the race, Allopathy attacks it.

It is absurd that these schools should fancy that all of good is in their methods and none in any other.

Fortunately for the people, the merit which these "isms" will not recognize, is recognized by the public, and this public recognition, taking the form of a demand upon the medical profession, eventually compels it to recognize it.

Is it possible that the question has been answered by shrewd business men? A prominent man once said to an enquirer, who asked him how he got rich. "I got rich because I did things while other people were thinking about doing them." It seems to us that the public have recognized what this fatality is, and how it can be met, while the medical profession have been wrangling about it.

By a careful examination of insurance reports we find that there has been a sharp reform with reference to examinations, (and that no man can now get any amount of insurance who has the least development of kidney disorder, because they find that sixty out of every hundred in this country do, either directly or indirectly, suffer from kidney disease. Hence, no reliable company will insure a man except after a rigid urinary examination.

This reminds us of a little instance which occurred a short time ago. A fellow editor was an applicant for a respectable amount of insurance. He was rejected on examination, because, unknown to himself, his kidneys were diseased. The shrewd agent, however, did not give up the case. He had an eye to business, and to his commission, and said: "Don't you worry; you get a half-dozen bottles of Warner's safe cure, take it according to directions and in about a month come around, and we will have another examination. I know you will find yourself all right and get your policy."

The editor expressed surprise at the agent's faith, but the latter replied: "This point is a valuable one. Very many insurance agents all over the country, when they find a customer rejected for this cause, give similar advice, and eventually he gets the insurance."

What are we to infer from such circumstances? Have shrewd insurance men, as well as other shrewd business men, found the secret answer to the enquiry? Is it possible that our columns have been proclaiming, in the form of advertisements, what has proved a blessing in disguise to millions, and yet by many ignored as an advertisement?

In our files we find thousands of strong testimonials for Warner's safe cure, no two alike, which could not exist except upon a basis of truth; indeed they are published under a guarantee of \$5,000 to any one who will disprove their correctness, and this offer has been standing, and we are told, for more than four years.

Undoubtedly this article, which is simply dealing out justice, will be considered as an advertisement and be rejected by many as such.

We have no space nor time to discuss the proposition that a poor thing could not succeed to the extent that this great remedy has succeeded, could not become so popular without merit even if pushed by a Vanderbilt or an Astor.

Hence we take the liberty of telling our friends that it is a duty that they owe to themselves to investigate the matter and reflect carefully, for the statements published are subject to the refutation of the entire world. None have refuted them; on the contrary hundreds of thousands have believed them and proved them true, and in believing have found the highest measure of satisfaction, that which money cannot buy, and money cannot take away.
